

## Changes to submitting surveying data & enquiries

The Department of Natural Resources, Mines and Energy is undertaking a review into some of the administrative aspects of survey plan submission and processing. In seeking efficiency gains, the paths for submitting surveying information (such as deposited plans, identification plans, Form 6, PSM maintenance forms and GNSS data) have been consolidated.

The format and type of data being submitted remains the same, as is the centre to which the data is normally submitted. However, the wfsurv email groups are now no longer available, instead three new email addresses have been established based on the department's three regions. Whilst the northern and central regions' email addresses are now different, their existing addresses will still be valid for a period of time. The new email addresses are:

<b>Email Address</b>	<b>Surveying centre</b>
<a href="mailto:Surveys.South.Region@dnrme.qld.gov.au">Surveys.South.Region@dnrme.qld.gov.au</a>	Beenleigh, Brisbane, Bundaberg, Caboolture, Ipswich, Maryborough, Nambour, Robina, Toowoomba
<a href="mailto:Surveys.Central.Region@dnrme.qld.gov.au">Surveys.Central.Region@dnrme.qld.gov.au</a>	Mackay, Rockhampton
<a href="mailto:Surveys.North.Region@dnrme.qld.gov.au">Surveys.North.Region@dnrme.qld.gov.au</a>	Cairns, Townsville
<a href="mailto:CadastralAdminDataHelp@dnrme.qld.gov.au">CadastralAdminDataHelp@dnrme.qld.gov.au</a>	All centres (Form 6 and PSM maintenance forms not associated with a plan submission)
<a href="mailto:GeodeticSupport@dnrme.qld.gov.au">GeodeticSupport@dnrme.qld.gov.au</a>	All centres (GNSS data)

The three new regional email addresses are also to be utilised for surveying advice or enquiries. Any titling specific enquiries can continue to be directed to [Titlesinfo@dnrme.qld.gov.au](mailto:Titlesinfo@dnrme.qld.gov.au).

## Subscribe to DNRME Surveying Alerts

The Department of Natural Resources, Mines and Energy uses a subscription service to communicate information pertinent to surveyors via Surveying Alerts. Individuals are able to manage their own subscription through a web portal. The Surveyors Board does not usually forward general communications from the Department on to registered surveyors, as many surveyors are already subscribed to the Surveying Alerts service.

The Surveyors Board encourages all individuals and corporations registered with the Board to subscribe to the DNRME Surveying Alerts. To subscribe click [here](#).
