

Queensland Spatial Excellence Awards 2017

Citation

Young Professional of the Year Award (*Highly Commended*)

Ben Moritz

Ben demonstrates a sound and strong technical skill base in the field of Land and Engineering surveying.

Ben is growing into an outstanding 21st century professional consulting Surveyor, combining technical and IT experience in today's surveying field with the strong personal skills to be able to convey his technical expertise to his clients and members of the community. With 14 years' experience behind him, Ben has proven throughout his career a dependability young professional to meet and complete all client project timelines while building a strong 'trusted advisor' business relationships with clients.

Also generous with his time for his profession Ben has presented papers to SSSI regional conferences at QSSC17 and participated in Destination spatial events since 2015.

Outstanding performance

Ben is a highly skilled registered surveyor and spatial analyst, has been principal surveyor and project manager for several large construction and infrastructure projects. The Queensland State Velodrome project, under Ben's management, was recently awarded for 2015 Technical Excellence for Infrastructure and Construction. Other recent major projects that have been completed by Ben as surveyor and project manager are the remedial works to the Swickers Bacon factory in Kingaroy, nominated for service to the community award in 2017, The Queens Wharf Development monitoring, and various small to medium scale residential development and subdivision projects.

Ben is highly skilled in development construction project management from a surveying and spatial perspective through use of modern survey equipment, methodology and software including terrestrial laser scanning, building information modelling (BIM), land tenure boundary reinstatements, marking and compliance surveys.

Judges' Comments

"Ben shows strong professional growth during his career to-date and a dedication to his professional commitments and service to his clients. As well, Ben shows interest in professional organizations and the careers of young people."
